

# Parents as Teachers™

For Clear Creek, Gilpin, Jefferson,  
and Park Families

Parents as Teachers, or PAT, is a national program designed to provide the information, support, and encouragement parents need throughout pregnancy and until a child enters kindergarten.

**PAT helps make parenting FUN and SUCCESSFUL!**

## *You'll experience...*

**Personal Visits** - Each month, a parent educator will share age-appropriate child development and parenting information, and will help you learn to observe your child, and address your parenting concerns.

**Monthly Group Connections** - Join other families for fun and informative activities that engage parents and children alike! These group meetings are a great way to meet other families with similar aged children!

**Screenings** - Mountain Resource Center's Parents as Teachers uses the Ages and Stages Questionnaire, a tool that helps you to assess your child's overall development, the Bracken School Readiness Assessment, and provides hearing and vision screening.

**Resource Network** - Families are connected to resources in the community, for all levels of needs.

## Sign Up Today

**This program is FREE for all families.**
